

**FACE OF
AMERICA**
GETTYSBURG

Cycling with Adaptive Military Veterans to Gettysburg April 19-21, 2024

Face of America honors and supports our military – adaptive, veterans and active duty – and the true American Spirit. **Face of America** is **World T.E.A.M.**'s two-day inclusive cycling challenge for adaptive and able-bodied athletes, ending in historic Gettysburg, Pennsylvania. Riders travel 108 miles on a route beginning in Arlington, Virginia and overnighting in Frederick, Maryland.

This inspiring program welcomes adaptive and able-bodied servicemen and women as teammates in a challenging two-day ride. Through participation, athletes show how much America appreciates the efforts and sacrifices of our military veterans. 2024 will be the 19th Face of America. Funds from participant peer-to-peer fundraising help support this program but also the World T.E.A.M. organization.

Face of America begins with a festive dinner at our host Arlington hotel on Friday, April 19. The following morning, over 350 adaptive military veterans and able-bodied athletes will begin their journey through Virginia, Maryland and Pennsylvania. Along the route, riders will have several rest stops, eventually finishing with a celebration on Saturday at the Frederick Fairgrounds. After spending Saturday evening in Frederick, participants will ride Sunday morning along picturesque country roads, through the historic Civil War battlefields and downtown Gettysburg. They will complete the Face of America at the WWII American Experience museum. Like all **World T.E.A.M.** events, the **2024 Face of America** provides exceptional opportunities for adaptive and able-bodied persons seeking greater personal challenges and continued fellowship and support.

About World T.E.A.M.

World T.E.A.M. - nonprofit 501(c)(3)- brings adaptive and able-bodied athletes together by empowering, engaging, and enabling individuals through inclusive athletic programs. We believe **The Exceptional Athlete Matters**.

For more than 25 years, our organization has used athletics to challenge and empower men, women and children with disabilities to accomplish goals they never thought possible. In all our programs, from mountain climbing, cycling, white water rafting, and many other sports, we include both adaptive and able-bodied participants.
